PROFILE

Passionate frontend developer with a solid foundation in HTML, CSS, JS and React.js. Known for being self-driven, reliable, and committed to delivering responsive, user-friendly web apps. Currently expanding my skills toward full-stack development, and actively seeking project-based opportunities to grow through hands-on experience and meaningful collaboration

SKILLS

- HTML & CSS : Build structured, responsive and visually appealing web layouts from scratch.
- JavaScript : Add interactivity and dynamic behavior to websites through modern scripting
- React.js : Develop reusable, component-based UIs for scalable SPAs
- Next.js : Create fast, SEO-friendly web apps using server-side rendering (SSR) and routing
- Bootstrap : Rapidly style and structure responsive web pages using utility classes and grid system
- Git & GitHub : Manage code versions, collaborate in teams
- RESTful APIs : Integrate frontend with backend data and services efficiently
- Teamwork : Collaborate effectively in group projects and contribute to shared goals
- Problem Solving : Analyze bugs and implement solutions quickly and efficiently

WORK EXPERIENCE

Persian Pet Shop Web

- Boosted Rendering performance by 35% due to React's component-based architecture
- increased code maintainability and modularity by 50% after switching from JavaScript to React
- Implemented a responsive design compatible with mobile and desktop devices using Bootstrap and a mobile-first approach.
- [GitHub](#)

Chatbot

- Improved page load speed by 40% thanks to React's virtual DOM and efficient rendering
- Built seamless user-AI interaction through API integration
- Delivered a fully responsive design using Bootstrap, working seamlessly across mobile and desktop
- Achieved clean, scalable structure with reusable React components
- [GitHub](#)

Medical Booking

- Designed and developed a responsive medical booking web application using React and Bootstrap
- Implemented interactive sliders and dynamic UI sections using Swiper
- Managed API requests and mock backend functionality using Axios and JSON Server
- Added multilingual support with RTL/LTR layout handling using i18next
- [GitHub](#)

Responsive Designs

- Achieved 100% mobile responsiveness across 3 screen sizes (mobile, tablet, desktop) using Bootstrap grid and media queries
- Maintained clean, SEO-friendly structure that led to +40% faster indexing in environment
- [GitHub](#)

EDUCATION

Frontend Development Training - Webitern Academy

- Studied JavaScript fundamentals and React framework in depth
- Learned to build responsive websites
- Gained hands-on experience with dynamic UI components and state management
